---------------------	--------------------------	-----------------	--------------

## Purpose of the Policy

The purpose of this policy is to establish the criteria for coverage and initial duration of therapy limits on oral isotretinoin products.

## Statement of the Policy

Health Alliance Medical Plans and Health Alliance Northwest will approve the use of oral isotretinoin products when the following criteria have been met.

## Criteria

### 1. Isotretinoin Oral

- 1.1 An electronic Managed Dose Limit (MDL) is in place that allows for up to 8 months of treatment with an oral isotretinoin agent (such as Claravis, Amnestein, Myorisan, Zenatane, Absorica, Accutane).
- 1.2 Coverage of Absorica requires documented trial and failure (while taking with a high-fat meal), or intolerance, or contraindication to one of the following:
  - Amnestein
  - Claravis
  - Myorisan
  - Zenatane
- 1.3 Provider can submit medical chart documentation to support medical necessity of extended treatment duration beyond the covered 8 months.
  - Maximum covered cumulative treatment dose 150mg/kg
  - Recommended treatment duration is 4 to 6 months

### 2. Subsequent Treatment Courses

- 2.1 Subsequent courses of isotretinoin will not be approved until the member is at least 5 months post-treatment from the previous treatment cycle
