

<b>Policy Name:</b>	<b>Vijoice (alpelisib)</b>	<b>Policy #:</b>	<b>3165P</b>
---------------------	----------------------------	------------------	--------------

## Purpose of the Policy

The purpose of this policy is to establish the criteria for coverage of Vijoice (alpelisib).

## Statement of the Policy

Health Alliance Medical Plans and Health Alliance Northwest will approve the use of Vijoice (alpelisib) under the specialty pharmacy benefit when the following criteria have been met.

## Criteria

### 1. PIK3CA-Related Overgrowth Spectrum (PROS)

- 1.1 Documented diagnosis of PIK3CA-related overgrowth spectrum (PROS)
  - Must include evidence of PIK3CA gene mutation
- 1.2 Documentation that patient's condition is severe or life-threatening and treatment is deemed necessary as determined by the treating physician
- 1.3 Documentation supporting at least one target lesion identified on imaging scans performed within the previous 6 months
- 1.4 Age 2 years or older
- 1.5 Prescribed by or in consultation with a geneticist (doctor specializing in genes and heredity) or specialist in the treatment of PROS
- 1.6 Review of clinical documentation confirming that patient has met all of the above requirements for treatment is completed by both a pharmacist and a medical director

### 2. Managed Dose Limit

- 2.1 #60 tablets per 30 days

### 3. Approval Period

- 3.1 Initial: 6 months
- 3.2 Reauthorization: 12 months with documentation of positive response to therapy, as evidenced by documentation of at least a 20% reduction in the sum of measurable target lesion volume and without new lesion development
