

Policy Name:	Hemgenix (etranacogene dezaparvovec)	Policy #:	3168P
---------------------	---	------------------	--------------

Purpose of the Policy

The purpose of this policy is to establish the criteria for coverage of Hemgenix (etranacogene dezaparvovec).

Statement of the Policy

Health Alliance Medical Plans and Health Alliance Northwest will approve the use of Hemgenix (etranacogene dezaparvovec) under the medical benefit when the following criteria have been met.

Criteria

1. Coverage Criteria for Hemophilia B

- 1.1 Males with diagnosis of moderate or severe hemophilia B
 - Diagnosis of moderate or severe hemophilia B defined as an inherited deficiency of factor IX with a factor IX activity level $\leq 2\%$ of normal (≤ 0.02 IU/mL)
- 1.2 Ages 18 years or older
- 1.3 Prescribed by or in consultation with a hematologist (doctor of blood disorders) or hemophilia specialist
- 1.4 Documentation to support a current or historical life-threatening hemorrhage OR repeated, serious spontaneous bleeding episodes
 - Documentation must include number of bleeds within the year prior to request of Hemgenix
- 1.5 Previous use of Factor IX prophylaxis therapy for ≥ 2 months
- 1.6 Review of chart notes and labs documenting diagnosis and confirming that patient has met all of the above requirements for treatment with Hemgenix by both a pharmacist and medical director

2. Exclusion Criteria

- 2.1 Diagnosis of any other inherited or acquired hemophilia (ex: hemophilia A, hemophilia C, etc)
- 2.2 Documented factor IX inhibitors
- 2.3 Any documented active hepatitis C infection, uncontrolled HIV infection or evidence of advanced cirrhosis

3. Approval Period

- 3.1 One-time approval per lifetime
